

Wilcox - PC-DMIS

Wilcox Associates Inc. is the developer of PC-DMIS, the world's leading metrology software. Metrology is the science of measurement. PC-DMIS sets the measurement standard through its direct and seamless integration with CAD data, eliminating translation and maintaining the original design intent throughout the measurement process.

PC-DMIS provides comprehensive measurement routines for all part types, whether contoured, thin walled or prismatic, providing unparalleled versatility for all applications, from the simple to the most complex. PC-DMIS will also run any brand of Coordinate Measuring Machine (CMM), maximizing its productivity in the process.

With the introduction of PC-DMIS Vision, PC-DMIS Portable, PC-DMIS NC and PC-DMIS Web Reporter, the best in class capabilities enjoyed by users of PC-DMIS for CMMs are now extended into new technologies, bridging the gap between design and reality in all aspects of the manufacturing process.

About Wilcox Associates

Founded in 1990, Wilcox Associates, Inc. is the developer of PC-DMIS, the world's leading CMM software, and Enterprise Metrology Solutions (EMS), a tightly integrated suite of software products focused on the collection, evaluation, management and presentation of manufacturing data. These products allow manufacturers to quickly capture dimensional data, analyze it and act on it to reduce scrap, improve throughput and reduce costs.

Wilcox Associates is part of Hexagon Metrology, which distributes and supports its products worldwide. In addition to Wilcox Associates, Hexagon Metrology includes: Brown and Sharpe, CE Johanssen, DEA, Hexagon Metrology Asia Pacific, Hexagon Metrology Services, Leitz, Mirai, Romer, Romer/Cimcore, Sheffield, and Tesa.
