

## Romer Articulated Arm CMMs

The ROMER articulated portable CMM is designed for industries that are looking for 3D manufacturing solutions on the shop floor or in the metrology lab. Romer's NEW INFINITE arm with integrated Wi-Fi wireless connectivity and Li-ION battery provides INFINITE portability. Their portable CMM provides many features that make it ideal for inspection, measurement or reverse engineering on the shop floor or in the metrology lab.

ROMER invented the portable coordinate measuring machine and remains the world's leading innovator in portable metrology.

ROMER sells articulated arm portable CMMs in North America under the ROMER brand name. Elsewhere in the world, the products are sold under the brand name.
